Technology Management

A Global Education Powerhouse

QT & T Consulting (Asia) is a mature and dynamic Singapore based company which offers high end consulting, training, advisory services and technology solutions focused on Business Operations Excellence. Our operations excellence practice enables clients to improve the competitiveness of their business operations and benefit by strategic leveraging of information technology. Our engagement model is co-creation of value for clients by offering top-class business process & technology consulting services.

## Training Services

QT&T training arm delivers international accredited workshops, training, mentoring and coaching towards achieving Leadership Excellence, which again are organized into 3 to 5 core areas as shown below. We are accredited by PMI, USA as a Global Registered Education Provider (GREP) to deliver PMI's PMP training programs and also an accredited training associate of People Cert.

QT&T is the preferred training vendor for various major Multinational Corporates.

## QT&T Training - Key differentiators

- QT&T is a leader in "Experiential Learning". We use an interactive method of training which includes case studies, sample projects, simulation of scenarios, student presentations and role play for optimum learning. As stated earlier, we guarantee that the candidate will bring immediate, quantifiable benefits and value to the organization.
- Our trainers' capabilities are geared towards people at all levels in the organization. We have Champions Programs for senior management, Foundation Programs for entry level employees and Intermediate and Expert track programs for experienced professionals.
- We are flexible about schedules and supportive of the candidate through the full training cycle, from start to the final certification process and beyond.
- We take 360\* feedback from the participants and continuously improve our training content and the ease of customer engagement with us. In fact our phenomenal growth has been driven primarily by word of mouth and referrals from past students.

"In-depth insight for Better Business"

## Testimonials

The training was excellent. The trainer attended to all our questions patiently and in good humor. There are certainly some useful skills that can be picked up and added on to our project management arsenal.

- Senior Consultant, Frost & Sullivan.

The course was professionally conducted in a relaxed environment, with plenty of interactions between trainer and participants. The course also gave a good overview of PM Framework and many real life examples were given. I would definitely recommend QT&T course to people who want a good grasp of project management.

- Asia Messaging Lead, Moduslink Solutions Pte Ltd.

The trainer is able to provide good and relevant examples. The trainer did a good job in bringing the subject to life. I would definitely recommend this to others who are interested in the course.

- Solutions Quality Engineer, Hewlett Packard.

Well done! I have a very clear understanding of the ITIL now, which I can relate to my job very well.

- IT Manager, Shinsei Technologies.

Professional Services and Good Coach aren't easy to find...! Great Job QT & T!

- Project Manager IBM Singapore.
