

Agile Expert Certified (AEC™)

Delivery Method : Classroom

Code : AEC

Duration : 3 Days

What you will learn

Rapid changes in technology, market demands, and expectations have paved the way for the conceptualization and implementation of Agile methods and values in many organizations. Agile relies on adaptive planning and iterative development and delivery. It focuses primarily on the value of people in getting the job done effectively. AEC™ Certified Professionals should appreciate the concepts of Agile development and have the ability to compare and choose the Agile methodology appropriate in a given situation. The courseware and preparation tools required for the certification exam will be delivered in a classroom mode training over 3 days. Additional online tools & videos will also be provided. An online proctored exam will be conducted at the end of the course.

Applicants will be awarded the Agile Expert Certified (AEC™) certificate by SCRUMstudy after successfully passing the certification exam.

(Audience – right side) - This certification is appropriate for anyone interested in becoming familiar with the concepts and practices of Agile Project Delivery, and who wants to have a working knowledge of the various Agile methodologies)

(Pre requisite right side) - There is no formal prerequisite for this certification. However, a SDC™ or SMC™ certified professional will be able to easily understand the concepts required for the certification exam. You can attend a 3-day AEC™ classroom training provided by a SCRUMstudy approved Authorized Training Partner (A.T.P.)

Examination

- Multiple Choice
- 100 questions per exam
- One mark awarded for every right answer
- No negative marks for wrong answers
- 120minutes duration
